SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Critical Thinking

TECHNICAL SKILLS

- HDCA
- Java(Basic)
- Python
- Tableau
- SQL

LANGUAGES

- English
- Tamil
- Malayalam(Basic)

OBJECTIVE

Data Analyst with strong skills in SQL, Python, and data visualization, passionate about transforming raw data into actionable business insights. Seeking to leverage analytical expertise and problem-solving abilities to drive data-driven decision-making.

PROJECT

Academic Performance Analysis Case Study

- Analyzed department academic performance data to identify trends and performance gaps.
- Performed data cleaning and preprocessing using Excel.
- Conducted exploratory data analysis (EDA) to evaluate subject-wise and semester-wise performance.
- Presented findings with actionable recommendations to improve academic outcomes.

IoT Gesture-Controlled Smart Lighting System

- Developed an IoT-based smart lighting system using Aurdino
- Implemented hand gesture recognition to control brightness levels.
- Implemented eye blink recognition to control ON/OFF the LED.
- Integrated sensor input with real-time microcontroller processing.

Sign Language to Speech Converter for Shopping Assistance

- Developed an AI-powered IoT system for assisting hearing- and speech-impaired individuals in shopping environments.
- Implemented hand tracking using MediaPipe and trained a machine learning model for gesture classification.
- Designed system to provide instant audio feedback, improving accessibility and user independence.
- Optimized model performance for faster response and higher prediction accuracy.

EDUCATION

Higher Secondary Certificate

St. John Bosco Matric, Hr.Sec School

Bachelor of Computer Science with Data Analytics

Sankara College Of Science and Commerce
